## Modern Cavemen

**\*\*Hey guys! So, I watched the Croods and I totally had this awesome idea where it's the Croods, but it's a modern day school. I thought that was a really cool idea, so I will start to write it soon, but I've got stuff to do at home, like renovations and stuff (I technically don't have a fully working kitchen right now) so I will start writing it soon and have the first chapter out hopefully in a week or two. If you guys could review on any ideas you have for this story that would be great. If you have any ideas for OC's, like other kids in the school, that would be great too.\*\***

**\*\*I know there are a few of these already, and there will probably be allot more, but I am also going to write a story where the Croods meet up with Guy's long lost sister. \*\***

**\*\*I might also do a cross over with How To Train Your Dragon, or something like that. Maybe Ice Age. I you could give me your input on that that would be great as well.\*\***

**\*\*Thanks guys, the first chapter to this story will be up soon, and hopefully for the other two. (Let's see that's 6 stories I have to work on/start. Add that to homework and lifeâ€¦ I'm never going to be bored ever again. Well, I guess that's a good thing, I hope. OK, off topic again.) Please review any ideas you have and check out my other stories.\*\***

**\*\*Peace outâ€¦| zuril89 ;) \*\***
